Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/559,549	Applicant(s) ZIMPFER ET AL.	
	Examiner Stephen M. Hepperle	Art Unit 3753	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3753

Claims 14-19, 22-24, 27-40 remain pending after the amendment of 21 July 2008.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 37-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Shen (2003/0019526) or Quarve (3,971,404). Shen shows a slide valve with a passage intersected by a slide bore, which holds a slide valve. The slide valve has a head 83, sealed by seal 82 and biased by adjustable spring 85 in a vented chamber. In response to downstream pressure, blocking portion 314 substantially blocks the passage. The head is connected to the blocking portion 62 by pin portion 61. Pressure at the passage outlet 56 is used to close the slide when pressure exceeds a predetermined pressure limit. Quarve shows a pump 10, load 18, and parallel branches in between, each having a valve. Valve 15 has head 1t 34, blocking portion 30, and spring 32 in a slide bore, which intersects passage C, D. The recitation regarding "for use in a hydraulic system" to the end of the paragraph is seen as suggested use only.

Claims 37-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Jenkins (UK 102,688). Jenkins shows a valve with inlet B to outlet C passage intersected by a slide bore. The bore holds a blocking portion E connected by a short fat pin (formed by an o-ring) to a head portion above. The device is biased open by spring F, but will close above a predetermined pressure communicated from the passage (and ultimately from the inlet) through a channel in the valve (head, pin, blocking portion). The recitation regarding "for use in a hydraulic system" to the end of the paragraph is seen as suggested use only.

Art Unit: 3753

Claims 14-19, 22-24, 27-36 are allowed over the prior art of record.

Applicant's arguments with respect to claim 37-40 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Hepperle whose telephone number is 571-272-4913. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Huson can be reached on 571-272-4887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
